

Taking B.Des Studio Project to Market

# Rocking Chair for the Elderly

Sitting Down

Standing Up

- Provides rocking suitable as therapeutic aid for patients with Parkinson's Disease or Dementia by providing rhythmic movement of cerebral fluid.
- Ingress and egress makes it easy to get in and out of the chair, relieving pressure from the knees.
- Ensures smooth transition from sitting to standing and vice versa by the innovative footrest
- Support handles help the elderly for building confidence
